CD-11

CW-11

CD-11 - The affordable weighing and parts counting indicator

For General Purpose weight indication in pounds, kilograms, or grams, or for basic piece counting, the Ohaus CD-11 indicator provides a NTEP resolution up to 1:5,000 U.S. NTEP LFT or non-NTEP LFT resolution up to 1:20,000.

Special Features:

- Display hold and intuitive counting operation
- Standard RS232 for easy integration
- Impact-resistant housing for durability

The Ohaus CD Industrial Indicator (CD11) is the shape of things to come! The Model CD-11 offers functions like basic weighing, display hold and parts counting. Smart software and hardware are enclosed in a sharp contemporary housing. Designed to support up to four analog load cells in industrial and laboratory applications.

CW-11 - The indicator designed for wet environments

When a Washdown indicator is required, the Ohaus CW-11 provides an economical solution for weighing in pounds, ounces, kilograms and grams. Featuring both static and dynamic weighing modes for general weighing and livestock applications, the CW-11 also offers a parts counting mode and an U.S. NTEP LFT resolution of up to 1:5,000/ default resolution of 1:20,000. With an IP65/NEMA 4X housing, the CW-11 is ideal for washdown applications requiring either AC or battery-powered operation.

Special Features:

- All stainless steel IP65 rated washdown housing
- Easy-to-read, large 25mm backlit display
- Easy serviceability with "Quick Release" back panel – no screws or bolts

Combining the easy-to-use features of the popular Ohaus CD-11 indicator with a stainless steel washdown housing, the CW-11 provides an extremely durable indicator for industrial applications. Meeting NEMA 4X and IP-65, the CW-11 can support up to four 350-ohm analog load cells for use in industrial and laboratory applications.
